Summary

I'm a Frontend Developer with nearly two years of experience, always eager to learn and improve. I enjoy tackling challenges, refining my skills, and building clean, efficient code. I care about performance, user experience, and creating products that make an impact. Looking for a dynamic environment where I can grow and contribute.

Education

Ho Chi Minh City University of Technology, VNU-HCM, Vietnam 10/2020 – 11/2024

- Bachelor's degree in Computer Science
- GPA: 8.54/10

Skills

Languages: JavaScript, Typescript, PHP, C++

Frameworks/Platforms: Next.js, ReactJS, React Native, Express.js, NestJS

UI Frameworks, CSS Libraries: TailwindCSS, ShadCN, NextUI, NativeWind, RNUILib, Bootstrap, SCSS

Tools: VS Code, Git, Jira, Firebase, Google Cloud Platforms.

Databases: MongoDB, MySQL

Work Experience

Frontend Developer - Fulltime, Vietnam Blockchain Corporation, HCMC 8/2023 – Present

- Collaborated with cross-functional teams to address product requirements and resolve technical challenges.
- Worked on projects spanning blockchain-based agriculture (Agridental), water meter management, electronic opinion collection systems for government agencies (Hau Giang Province and Ho Chi Minh City), and company landing pages.
- Implemented key features such as workflow management, app notifications, user management, interactive maps, QR code processing, authentication (SSO) and GraphQL integration.
- Regularly contributed to internal Tech Talks, sharing insights on new technologies and best practices.
- Technologies: **Next.js, ReactJS, React Native, Firebase, Git, Gitlab, Github, Jira, TailwindCSS, SCSS, Bootstrap.**

Frontend Developer - Intern, Vietnam Blockchain Corporation, HCMC 6/2023 – 8/2023

- Researched and developed a Proof of Concept (PoC) for TourDC, a blockchain-powered travel notebook system.
- Received training in frontend development, enhancing technical versatility.

Projects

LingLink – Interactive Learning Platform (Graduation Thesis) 2/2024 - 6/2024

- **Technologies:** ReactJS, ShadCN, TailwindCSS, Redux, Redux Toolkit, Tanstack Query, Redux Thunk, MongoDB, NestJS, Socket.io, Cloudinary.
- **Description:** LingLink is a community-driven language learning platform that enables users to interact, create vocabulary sets, track learning progress, and participate in discussions. The platform provides a seamless and engaging user experience through real-time communication and personalized learning features.
- **Responsibilities:** Designed and developed UI components, collaborating closely with other team members. Integrated real-time chat functionality using Socket.io. Designed and developed controllers and models for client-side interactions. Implemented and optimized RESTful APIs for seamless integration.
- **Link:** <https://github.com/LingLink-team/linglink-frontend>

Certifications

- TOEIC (Listening and Reading): 740
- “Ho Chi Minh City Outstanding Student with Five Merits” in 2024
- “Typical Student” program at the Ho Chi Minh City University of Technology (HCMUT) for the academic year 2021-2022.
- Software Development with Scrum Certificate by Axon Active.
